

Cat Sitting

We offer a home visiting service, which is ideal for cats as they can stay in their own surroundings.

We will visit once or twice a day, whichever you prefer and feed your cat, give fresh water, clean/scoop litter trays if required and give lots of cuddles.

We can also draw your curtains, bring in your post, put out recycle bins, water the plants and turn lights on and off keeping your house safe while you are away.

If you have other pets we can take care of those while we are at your home as well.
